University Graduation Requirements

- In order to qualify for a baccalaureate degree, a student must complete all courses prescribed by the degree program they have elected, or their equivalent, as indicated in the Catalog in effect at the time they entered the degree program. Any variation, including substitutions and/or waiver of courses, must be approved in writing by the student's academic dean. If a student changes their elected degree program, they are required to follow the degree program as printed in the Catalog in effect at the time of the change. With approval of their academic dean a student may be allowed to elect to work under the current Catalog.
- The minimum total of semester credit hours required for a baccalaureate degree is 120. Certain degree programs may require more than 120 credit hours.
- Of the total credit hours required for the degree, a minimum of 45 credit hours of 300/400-level courses are required.
- The University requires that all students complete a specified set of 42 credit hours of general education courses ("core curriculum") over the course of their baccalaureate degree program.
- A maximum of 60 credit hours transferred from community colleges may be applied to the degree program. Remedial or developmental courses will not count towards the degree and are not included in the 60 credit hours transferred.
- The absolute minimum requirements for graduation are an adjusted grade point average of at least 2.0. *Students must attain at least a 2.0 minimum adjusted grade point average to graduate.*
- A student, in order to be eligible for the baccalaureate degree, shall be required to earn at least 30 credit hours or 25% of the total credit hours, applicable toward the degree, in residence at the University.

COLLEGE OF LIBERAL ARTS REQUIREMENTS

- All Liberal Arts majors are required to complete a minor, which is a chosen secondary area of study comprised of a minimum of 18 credit hours. Minor Policies and Requirements may be reviewed by visiting the following website: [Programs of Study & Minors - University of Louisiana Lafayette - Acalog ACMSTM](#).
- Continuing UL Lafayette students who plan to take courses at another institution as part of their degree plan must seek formal approval for each course from their Academic Dean prior to enrollment. *A special waiver of residency is required during the students' last 30 credit hours.*
- Students may apply no more than 42 credit hours above the 100-level of major courses toward a degree. Approved exceptions include Communication and English majors/concentrations at 45 credit hours above the 100-level.
- Transfer courses are currently evaluated at the departmental level in collaboration with the Office of the Registrar. Once evaluated, all coursework is posted on the student's unofficial UL transcript that can be found in the Student Profile. Contact the Dean's Office for clarification on any transfer work.

GRADUATION APPLICATION

- **The Graduation Check Sheet:** Indicates what course work remains to complete degree requirements. Students must complete the Check Sheet with their academic advisor during their second-to-last semester; the academic advisors must submit the students' Check Sheet to the Dean's Office before the end of the second-to-last semester. *Delays in submitting a timely Check Sheet may also delay a student's graduation.*
- **The Application for Degree:** Required to ensure students receive their diploma during graduation and is to be completed well prior to graduation, according to posted deadlines. Submitting the Application for Degree prior to the final semester ensures priority registration for graduating seniors. The application is available through the student's ULink account and payments can also be made through your Statement of Account on ULink.
